EDUCATION

MASTER'S IN COMPUTER APPLICATIONS 2001
MK University

BACHELOR'S IN SCIENCE - MATHEMATICS
Andhra University

TECHNICAL SKILLS

CLOUD

AWS (EC2, ECS, Lambda, S3, RDS, IAM, CloudWatch) • Oracle Cloud (OCI)

INFRASTRUCTURE AS CODE

Terraform • CloudFormation • Ansible

CONTAINERS & ORCHESTRATION

Kubernetes • Docker • ECS • Fargate

CI/CD & DEVOPS

Jenkins • GitLab CI/CD • AWS CodePipeline • Git • GitHub

PROGRAMMING

Java • Python • Bash • Spring Boot

MESSAGING

Kafka • JMS • MQ • SQS • SNS

DATABASES

Oracle • PostgreSQL • MySQL • MongoDB • Cassandra • DynamoDB

MONITORING

CloudWatch • Grafana • Prometheus • ELK • Splunk • Dynatrace

OPERATING SYSTEMS

Linux • Unix • Windows

EXPERIENCE

ERCOT | SENIOR CLOUD PLATFORM ENGINEER

Apr 2025 – Present | Taylor, TX

- Engineer and automate cloud/on-prem platforms using Terraform, Ansible, and Kubernetes.
- Manage CI/CD pipelines and cloud-native services supporting critical energy systems.
- Implement monitoring and incident response with CloudWatch, Grafana, and Prometheus.
- Support Kafka-based microservices and improve platform reliability and scalability.

AMAZON ROBOTICS | SENIOR CLOUD INFRASTRUCTURE ENGINEER

Feb 2023 – Mar 2025 | North Reading, MA

- Designed AWS infrastructure for large-scale microservices and robotics platforms.
- Built Terraform IaC and managed ECS/Fargate container workloads.
- Developed CI/CD pipelines using Jenkins and AWS native services.
- Improved system performance through monitoring, logging, and cost optimization.

BIOGEN | CLOUD INFRASTRUCTURE LEAD

Jun 2022 – Jan 2023 | Durham, NC

- Led AWS cloud migration and infrastructure modernization initiatives.
- Automated infrastructure with Terraform and built CI/CD pipelines.
- Supported Kubernetes deployments and cloud security/compliance requirements.

DELL TECHNOLOGIES | APPLICATION ARCHITECT / DEVOPS LEAD

Jul 2015 – May 2022 | Austin, TX

- Designed and delivered cloud-based microservices using Java, Spring Boot, and AWS.
- Led migration from monolithic systems to scalable cloud architectures.
- Built CI/CD pipelines, automated deployments, and API integrations.
- Worked with Kafka, REST APIs, and cloud-native DevOps tooling.

IBM | SENIOR INFRASTRUCTURE ENGINEER

May 2012 – Jul 2015 | New York, US

- Managed Linux enterprise infrastructure and automated operational workflows.
- Implemented monitoring, automation, and disaster recovery solutions.
- Supported Oracle and DB2 databases and middleware platforms.

INNOMINDS & WELLS FARGO | SOFTWARE ENGINEER / INFRASTRUCTURE ENGINEER

Dec 2009 – Mar 2012 | San Jose, CA & Nov 2007 – May 2009 | Des Moines, IA

- Developed Java/J2EE enterprise applications and automation tools.
- Supported CI/CD, deployments, and infrastructure operations.
- Worked with Linux, databases, and enterprise integration technologies.
